Dear Charles,

I am pleased to inform you that I will be able to participate in the important work you are undertaking at the Center for Curriculum Redesign. The CCR's work is consistent with UNESCO's values in pursuit of education for all and follows in the foot-steps of UNESCO's efforts to grasp the nature of the educational challenges as exemplified in the Delors Commission Report, Edgar Morin's "*Sept Savoirs*", ICT-IFT, etc.

In light of the transformations taking place in the world today it is essential to question the models we use to imagine the future. For if we are unable to grasp the novel systems emerging around us we will be unable to ensure a congruence between our aspirations and our actions.

I am happy to contribute my expertise in Futures and the future of learning to the conversations and knowledge creation taking place at CCR. I will also gladly ensure that what we learn and create through CCR is shared with my colleagues at UNESCO.

Yours sincerely,

Riel Miller
