# Definition

“Character” =

“Agency, Attitudes, Behaviors, Dispositions,  
Mindsets, Personality, Temperament, Values”

= “Social & Emotional Skills” (OECD)

~~“Non-Cognitive”~~ ~~“Soft skills”~~

# Why Character Education ?

Financial instability

Religious fundamentalism

Climate change

Personal privacy

Political partisanship

*Our Human Interdependency !*

# Human Interdependency...

# Per UNESCO

“There is every reason to place **renewed emphasis on the moral and cultural dimensions of education**... this process must begin with self-understanding through... knowledge, meditation and the practice of self-criticism.”

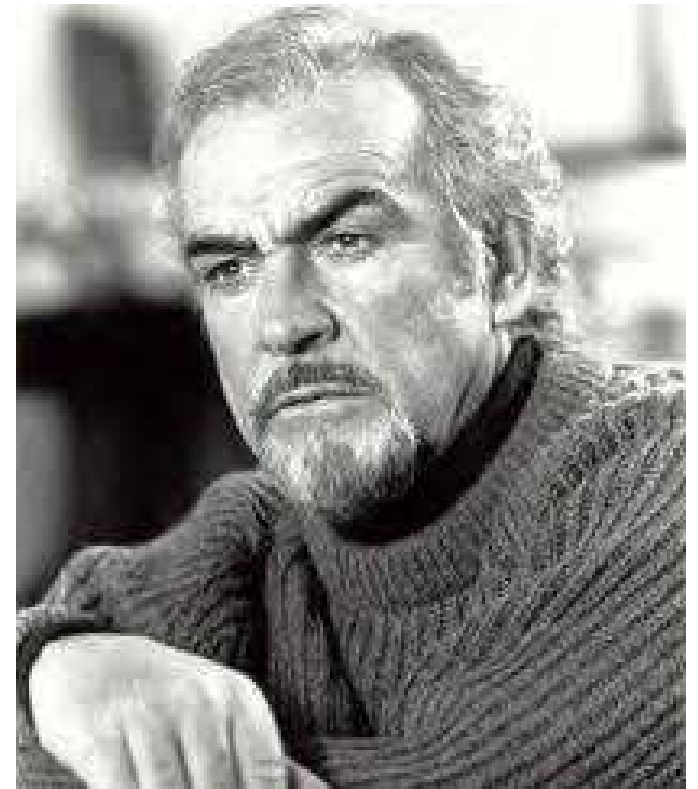

Report from the International Commission on Education in the 21<sup>st</sup> Century,  
UNESCO 1996

# Wisdom from movies

“Today you have to think like a hero merely to behave like a decent human being.”

Sean Connery's character in The Russia House

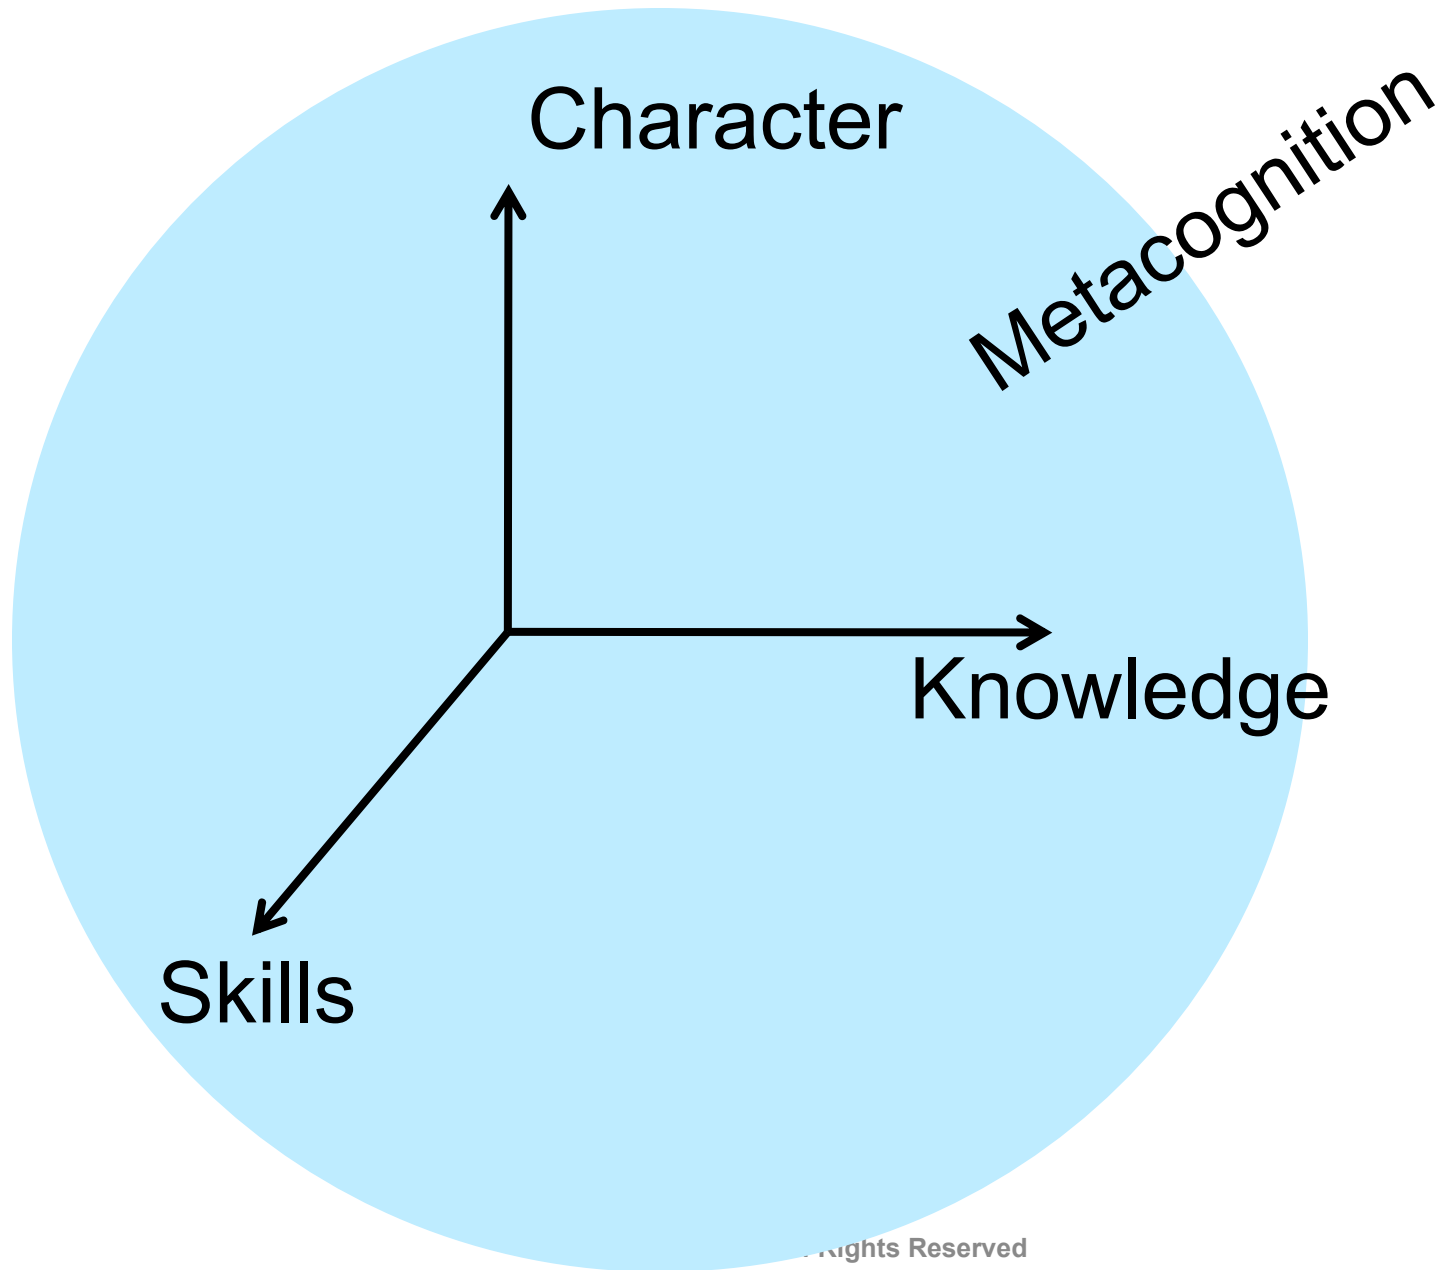

# Why should formal education systems teach Character ?

Weakening of past structures (government, religions) right when we need Character most...

# Desired: A 21<sup>st</sup> Century Education

# More Definitions: Skills

## The 4C's:

- Creativity/Innovation
- Critical Thinking
- Communication
- Collaboration

Source: "21<sup>st</sup> Century Skills" by Bernie Trilling & Charles Fadel, based on P21.org's framework

# Why a Framework ?

What gets expressed gets focused on !

# What makes a robust framework ?

1. Completeness → no misses
2. Compactness → actionable
3. Uncorrelated → no duplication
4. Appropriate layer of abstraction → sensical

# Why not use an existing framework ?

We could not find one that met all our criteria...

# How did we Proceed ?

Synthesized then refined a composite of many frameworks from around the world:

- CAEC
- Character Counts! Coalition
- CharacterEd.Net
- Character Education Partnership
- China MoE
- Facing History and Ourselves
- KIPP Schools
- P21.org
- Royal Society for the Arts
- Singapore MoE
- South Korea MoE
- Success DNA
- Sweden MoE
- Thailand MoE
- Young Foundation
- Etc.

Refined even more with inputs from 500+ teachers

# Incorporating Education Philosophers

## Commonality of Concepts

### Gardner:

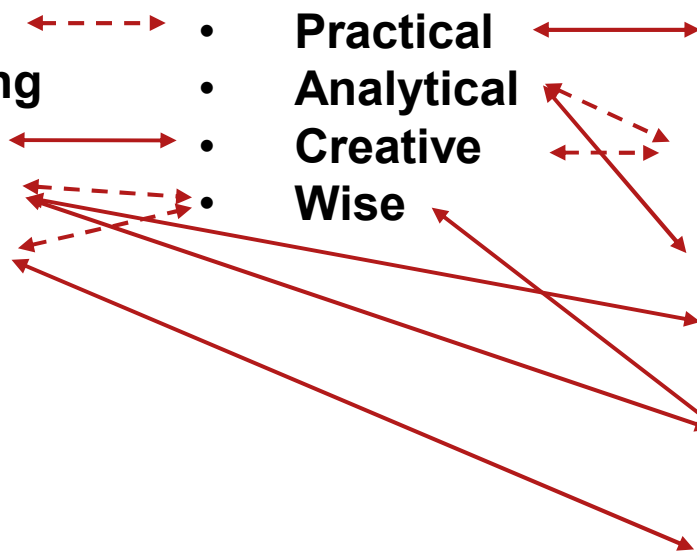

- **Disciplined**
- **Synthesizing**
- **Creating**
- **Respectful**
- **Ethical**

### Sternberg:

- **Practical**
- **Analytical**
- **Creative**
- **Wise**

### Morin:

- **Pertinence in knowledge**
- **Confronting uncertainties**
- **Detecting errors**
- **Understanding each other**
- **Teaching the human condition**
- **Ethics for humanity**

## Along the way, we found that:

- Distinction of Moral vs Performance is difficult and partially duplicative
- Distinction of Inter- vs Intra-personal is also unnecessary for the same reasons

# Forcing Education Outside the Classroom

- Sometimes out of school altogether
- Examples: Scouts; Outward Bound; etc.

**Girl Scouts**®

# What about Assessments ?

Three layers:

1. Objective Assessment (tests)
2. Subjective Assessment (self, group [360, peers], etc.)
3. Anecdotal: Success + Failure stories without assessment

We cannot necessarily measure all what matters...

*but it is not a reason for not doing what matters.*

# Wisdom as Ultimate Goal

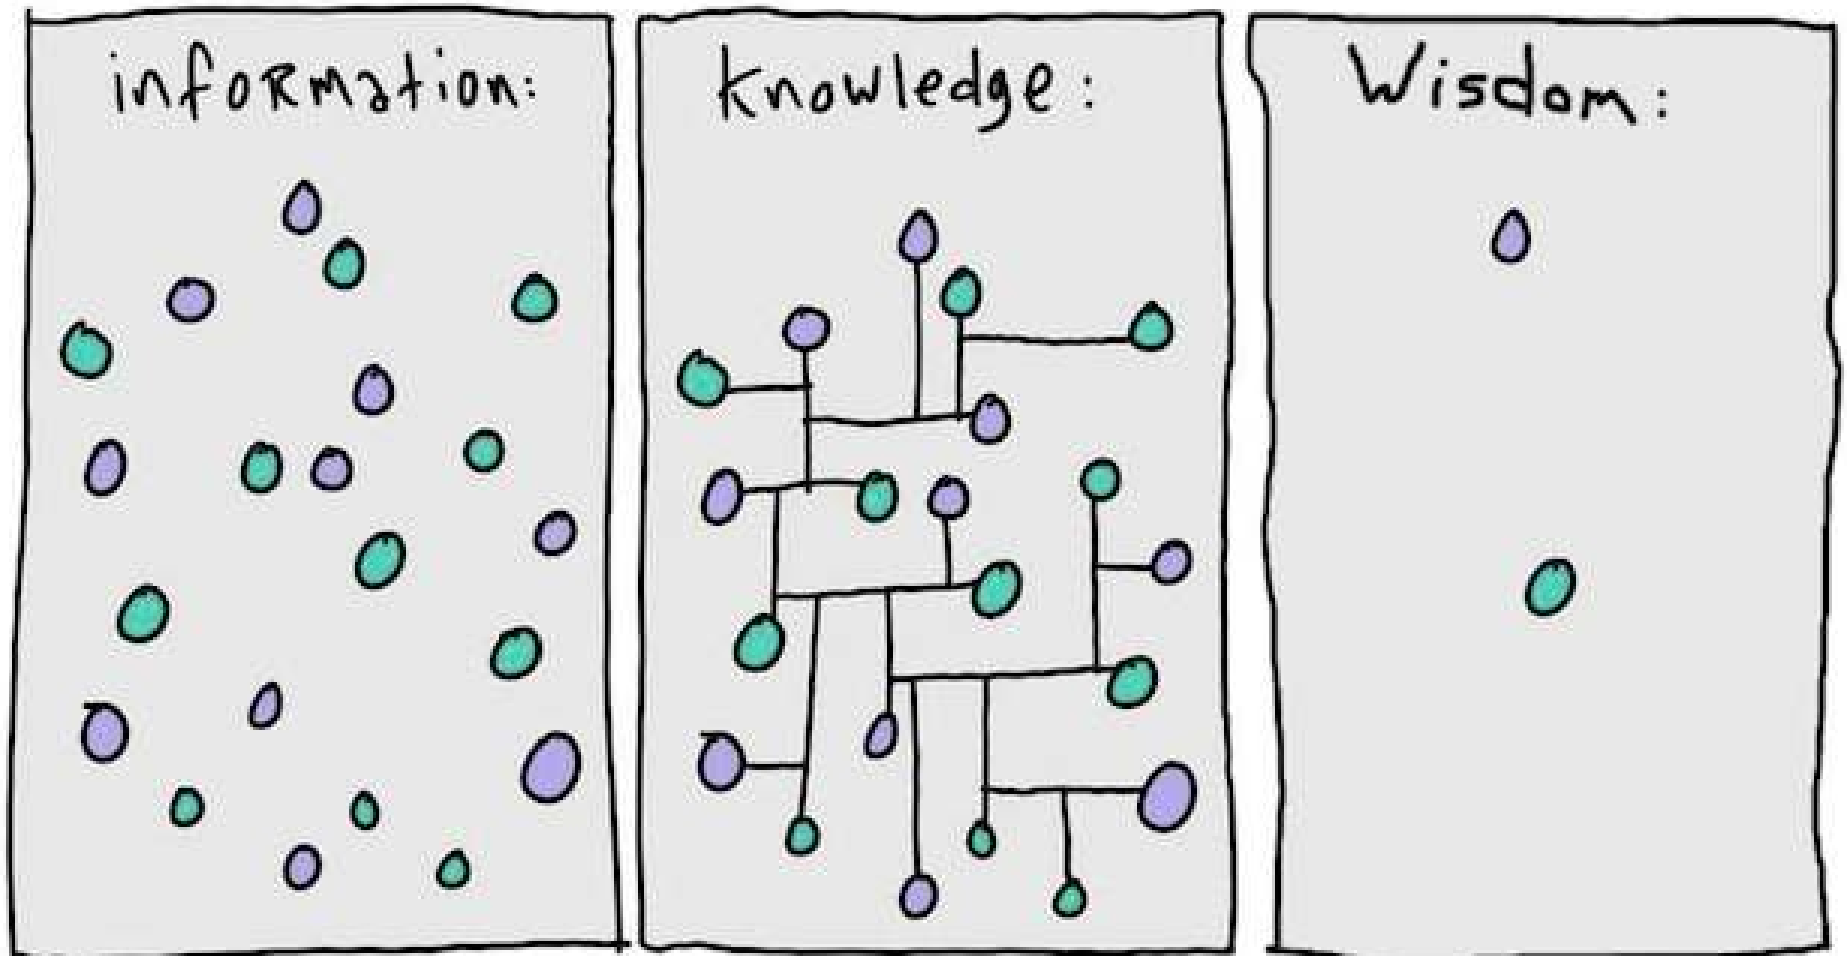

- What is Legal is not necessarily Ethical
- What is Ethical is not necessarily Wise

*“We are drowning in information, while starving for wisdom”*

E.O. Wilson

Harvard University
